

FACULTY DEVELOPMENT PROGRAM

18-20 December, 2017

Learning, Teaching and Research Excellence

About the Program

Drawing on contemporary and ancient psychological insights, this program shows how both teaching and learning styles are rooted in the dynamics of personality. By opening the door to a whole range of teaching techniques addressing the personality needs of different students, 'Learning, Teaching and Research Excellence' proves an invaluable aid to classroom teachers, parents, school psychologists, counselors, administrators and all those concerned with contemporary education issues.

The program uses V/P/K Type personality profiling based on Ayurveda-Psychology to provide insight into the body type and the emotional make up related to that type. The profile facilitates re-establishing the body / mind's natural balance by understanding the bio- rhythms, diet and life style. This knowledge enhances energy, creativity, emotional resilience and stress-reduction.

The program also focuses on how to build theory through content analysis and qualitative research.

Program Objectives

- To clarify the strengths and limitations of different teaching and learning styles
- To help teachers get more satisfaction out of teaching by identifying new ways to reach students with various learning styles
- To provide specific steps for handling conflict, discipline, and academic & interpersonal issues
- To build theory through qualitative research

V/P/K Profiling benefits

- Gain insight into the body type and the emotional make up
- Understand natural and adapted behavior patterns
- Understand your own behavior, reactions, and balanced & imbalanced patterns
- Communication Styles, change management, time management & leadership style
- Valuable information on team formation to have the best of each type
- Understand the bio- rhythms, diet and life style
- Enhance energy, creativity, emotional resilience and stress-reduction
